

Summary

Backend-focused BTech student with hands-on experience in designing RESTful APIs, building scalable server-side systems, and managing relational databases. Proficient in Django, MySQL, and full-stack development, with strong problem-solving skills and a focus on efficient, production-ready applications.

Education

KL University

Bachelor of Technology in Computer Science — CGPA: 9.5

June 2024 – May 2027

Vijayawada, Andhra Pradesh

Sri Venkateswara Government Polytechnic

Diploma in Computer Engineering — Percentage: 94.6

July 2021 – May 2024

Tirupati, Andhra Pradesh

Technical Skills

Languages: C, Java, Python, SQL

Backend Development: Django, PHP, REST APIs, Server-side Architecture

Database & Core CS: MySQL, Query Optimization, Data Modeling, Data Structures & Algorithms, OOP, DBMS, Operating Systems

Tools & Web: GitHub, Jenkins, CI/CD, GitHub Actions, HTML, CSS, JavaScript, React

Soft Skills: Leadership, Communication, Problem Solving

Work Experience

Python & Web Development Intern, Young Mind Technologies

June 2023 – Dec 2023

- Developed backend systems using Django, including REST APIs and database integration.
- Implemented authentication, CRUD operations, and optimized server-side logic.
- Integrated backend services with frontend components and improved API efficiency.

Projects

Event Flow - Campus Event Manager — Django, MySQL, REST APIs

Jan 2023

- Built backend system enabling student event registration and management.
- Designed optimized database schema and query handling.
- Developed admin dashboard for monitoring user activity.

Service Hub Website — PHP, MySQL

Dec 2024

- Developed backend system for service booking with authentication and request handling.
- Designed relational database for users, providers, and workflows.
- Integrated APIs ensuring seamless frontend-backend communication.

Sentiment Analysis of E-commerce Reviews — Python, Django, ML

2026

- Developed ML-based backend system for sentiment classification.
- Implemented preprocessing and deployed model using Django APIs.
- Enabled real-time and batch processing of review data.

Certifications & Achievements

- Programming in Java – **NPTEL**
- Data Science using Python – **NPTEL**
- Google AI/ML Virtual Internship – **AICTE & Google**
- Software Engineer Role Certification – **HackerRank**
- CI/CD Pipelines with Jenkins & Docker – **ICT Academy / AWS Academy**

Leadership & Activities

Web Development Wing Lead

2021 – 2024

Innovation Hub, KL University

- Led development team and mentored students in backend and full-stack technologies.

Student Body Organization

June 2024 – Present

Veda Club, KL University

- Organized workshops and mentored 100+ students in skill development.
